

Lean Arcade

A Gamified eLearning experience

Lean Arcade is a gamified crash course in Lean concepts and tools. Each of the course's eight lessons, which cover subjects like 5-S, Standard Work, and the 8 Wastes, pair accessible introductions to foundational Lean topics with interactive practice exercises. For each activity, users receive a score that can earn them a place on a company-wide and global leaderboard.

Key Concepts Include:

Transfer Functions

The 5 Lean Principles

8 Wastes (DOWNTIME)

Value Added Flow Charts

Spaghetti Diagrams*

Cellular Processing

5-S*

Standardized Work

Match the objects IN ORDER by dragging and dropping the object to its match.

4.1

The Field Technician heads to Evidence Storage to ensure that the evidence is properly registered, organized, and labeled.

Distance Travelled 15 ft Current Score: 2

*5-S Pit Crew

*Spaghetti Diagram Forensics Lab

Introduce a friendly, competitive atmosphere where participants can see where they rank among their cohorts. A global leaderboard is also included so they can see where they rank among the elite Lean Hall of Fame.

Scored competition motivates participants to internalize content.

Target Audience

Organizations and teams seeking to provide (associates / employees / students) with a fun, quick, interactive introduction to Lean.

Number of Participants

There is no minimum or maximum number of participants - train as many individuals as you want!

Materials Needed

Learning modules require: internet connection, modern browser.

Benefits

- Low-cost training for quick intro to Lean
- Can be rolled out with any size group
- No facilitation needed
- Short time to complete (~2hrs)
- Fun and nostalgic feel

Time Duration (2-3 hours)

The eLearning modules are self-paced and can be accessed at any time.

Ready for a hands-on experience?

Try our simulations!

5 simulation suite for all training levels!
