Blended Green Belt

Training & Certification Program

BENEFITS

- Personal support and peer-to-peer learning
- Project completion supported by experienced coaches
- Guided practice using simulations and real-world examples
- Certification process that produces a real-workplace project to confirm your capability
- Certification standards consistent with industry expectations

TOP FEATURES

- A robust, flexible program that aligns the training to the actual project work
- Qualified instructors and coaches who represent decades of professional Lean Six Sigma experience
- Proprietary SigmaBrew DMAIC™ & InBox™ simulations

COURSE OPTIONS

Industry Options: The eLearning component can be adjusted to fit several industries: Manufacturing (our standard offering), Healthcare, Financial Services, and Transactional. The Virtual Study Halls and Workshop also present service-oriented examples.

Software Options: Students can elect to use either EngineRoom® (included at no additional charge) or Minitab® 17 (Minitab software must be purchased separately).

PROGRAM DETAILS

The cost for the entire program is $3,950 and includes the following:

- eLearning Lean Six Sigma Green Belt course
- Green Belt Course Manual
- 5 Virtual Group Study Halls
- 4-day Simulation Based Workshop
- 3 hours of one-on-one project coaching
- Green Belt Certification Exam

Travel and lodging are not included.

SEATS ARE LIMITED. CONTACT US TODAY TO RESERVE YOUR PLACE!

Building off the success of our popular eLearning solutions (over 500,000 trained), MoreSteam now offers an open-enrollment Blended Green Belt Certification program.

The Most In-depth Blended Program Available

Our Blended Green Belt Certification program supplements MoreSteam's standard Green Belt eLearning course and certification program with virtual and face-to-face instructor support and coaching, creating a student-centered design focused on candidate learning and success. While certification is not guaranteed (you have to do the work!), candidates who want personal interaction with coaches and peer learners may find this program fits the bill.

Blended Learning: World Class Instruction, Conveniently Delivered

Blended Learning integrates multiple learning modes and learning activities. Data show blended learning models are up to 20% more effective compared to classroom-based training or eLearning alone. To achieve this learning premium, this program integrates eLearning, one-on-one coaching, virtual group study halls, an activity-based workshop and project work. Students will spend up to 60% of their time in practice, with the classroom used for hands-on practice rather than a standard lecture format.

Using a design we have recommended to corporate customers for years, this certification program is now available to individuals and small groups.

Students can register at any time and begin their eLearning coursework.

Blended Program Fall Schedule

- **Kick-off Webinar**   August 29, 2019
- **Virtual Study Hall #1**   September 19, 2019
- **Virtual Study Hall #2**   October 17, 2019
- **Virtual Study Hall #3**   November 14, 2019
- **Virtual Study Hall #4**   January 9, 2020
- **Virtual Study Hall #5**   March 5, 2020

Blended Learning Green Belt Curriculum

🟢 **Kick-off Webinar** (1 hour)

▪ **MoreSteam eLearning Sessions 1-4** (23 hours)
- Introduction to Lean Six Sigma
- Define I – Starting a Project and Leading Teams
- Define II – Voice of the Customer
- Define III – Mapping the Process

🌐 **Virtual Instructor-Lead Study Hall #1** (2 hours)

▪ **MoreSteam eLearning Sessions 5-6** (14 hours)
- Measure I – Measurements and Basic Statistics
- Measure II – Measurement System Analysis

🌐 **Virtual Instructor-Lead Study Hall #2** (2 hours)

▪ **MoreSteam eLearning Sessions 7-8** (16 hours)
- Measure III – Charting Process Behavior
- Analyze I – Identifying Potent Root Causes

🌐 **Virtual Instructor-Lead Study Hall #3** (2 hours)

▪ **MoreSteam eLearning Session 9** (11 hours)
- Analyze II – Hypothesis Testing

🌐 **Virtual Instructor-Lead Study Hall #4** (2 hours)

🔳 **Simulation Based Workshop using SigmaBrew DMAIC™ & InBox™** (4 Days)

▪ **MoreSteam eLearning Sessions 10-11** (18 hours)
- Improve
- Control

🌐 **Virtual Instructor-Lead Study Hall #5** (2 hours)

Training is then followed by testing and verification of experience through 1 Green Belt project. Candidates will begin their project in the early stages of the training. When all the requirements have been completed, you will be awarded certification through MoreSteam.com.
