

Lean Master Certification Program

\$133,229
The Average Salary
of a Lean Master

A Lean Master fosters a culture of continuous improvement within an organization, encouraging team members to identify and address inefficiencies. Lean masters are committed to minimizing process waste and prioritizing work that delivers value to the customer. This program will develop you as a Lean Master that can drive positive change, enhance the agility of an organization, and create a workplace that values innovation and problem-solving.

What Will I Accomplish?

Upon completing the Lean Master Certification Program, attendees should be equipped to:

- Design and optimize **process models** to apply Lean concepts in complex environments, understanding and balancing competing metrics
- Apply **Lean methodologies** for waste elimination, lead time reduction, mix and volume changes, and improved operations in various sectors
- Analyze **value stream maps** more thoroughly, and provide direction, analysis, and reporting for projects tied to organizational strategic initiatives
- Change leadership and **change management** to overcome opposition and lead successful deployments

This Program Includes

30 HOURS
Practice-Based eLearning

1 WEEK
In-Person Simulation-
Based Workshop

3 HOURS
1-on-1 Coaching and
Project Support

4 VIRTUAL
Instructor-Led Study Halls

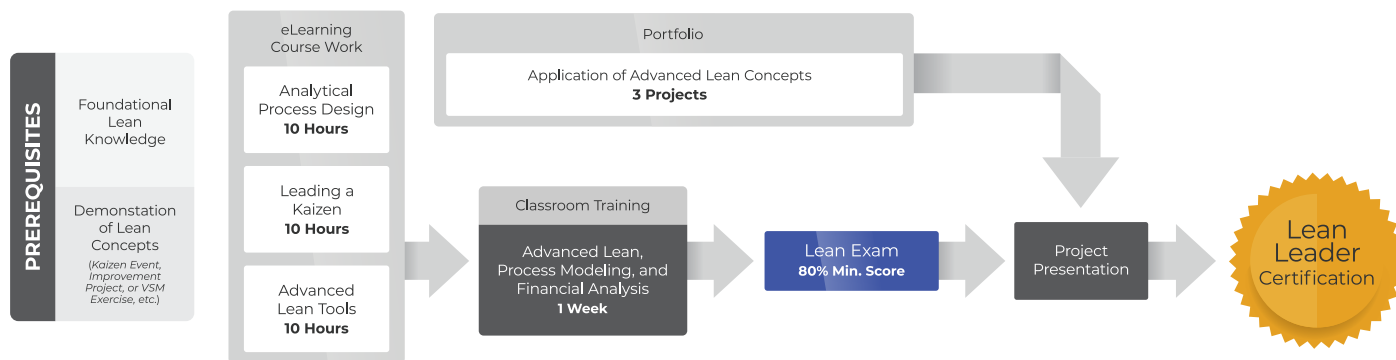

1 YEAR
Subscription Access
to EngineRoom® Data
Analysis Software

The Engine Room of Continuous Improvement®

Lean Master Program Structure

The effective combination of online coursework, virtual study sessions, and in-person training has a proven track record of propelling students beyond mere comprehension, fostering their confidence in becoming impactful Lean masters.

Curriculum

Advanced Lean Topics
Root Cause Analysis, Derivative Performance Metrics, TPM, Leader Standard Work

Analytical Process Design I
Discrete Event Simulation, Process Diagrams to Process Modeling, Predicting Process Performance

Analytical Process Design II
Monte Carlo, Continuous Flow Optimization, Supply Chain Dynamics, Testing & Piloting Designs

Leading Kaizen Events
Leading Kaizen Events, Effective Change Management

Certification

Certification is awarded upon:
Successful completion of the course work

A passing score on the exam of 80% or higher

Delivery of 3 projects where you have applied advanced Lean concepts and tools along with demonstration of Lean Master qualities in leading your teams and coaching your organization.

Pricing & Details

The Lean Master program runs twice a year in spring and fall. You must complete a short virtual interview prior to enrollment to give the instructors insights into your Lean journey.

The course is **12 weeks** long and the enrollment fee covers costs for the online course, instructor-led sessions, in-person workshop, and supplemental materials for class. Travel expenses not included.

\$5,995
